

★ Solutions

Data Troop's Frontline Defense System

- ★ Web Filtering
- ★ Spam Blocker
- ★ Spyware Blocker
- ★ Intrusion Prevention
- ★ Detailed Reports
- ★ And More

Data Troop's Frontline offers you the ability to eliminate spam and control your employees' Internet usage at an incredibly low monthly price.

\$8/employee/month (under 20 employees), \$7/employee/month (20+ employees). Plus there is no upfront hardware cost.

- ★ Specify specific websites and/or types of websites that you want to eliminate from your Internet usage
- ★ Limit specific users to only work related websites
- ★ Eliminate spam email from your Exchange Server or POP email accounts
- ★ Eliminate the usage of instant message/chat programs (AIM, Yahoo messenger, etc.)
- ★ Eliminate Spyware from entering your company network

Sonic Wall's CDP Backup Solution

- ★ Tapeless backups (completely automated)
- ★ Real-Time backup with version history
- ★ Onsite and Offsite data protection

SonicWall CDP (Continuous Data Protection) provides automatic, real-time data backup for servers, laptops & PCs.

The solution backs-up files locally to ensure data can be recovered instantly from any point in time. It also includes hands-free, automatic offsite capabilities to protect businesses against disasters.

★ About Us

Data Troop Is A Complete IT Service Provider For The Small And Medium Sized Business.

We deliver more than the best, most reliable customer technical service. We believe knowledge sharing and getting ourselves integrated into your business workflows is the only way to maximize our relationships' potential and your company's utilization of technology.

★ Services

An alternative to the time-consuming and expensive break/fix approach to IT support, Data Troop's Elite Care actively prevents technical problems and network downtime from occurring in the first place. Elite Care provides 24/7 monitoring of your systems, combined with alerts, reports and real-time inventories, to keep your mind off IT and on your business. Elite Care is based on a flat monthly fee which takes the guess work out of your IT budget and eliminates those fluctuating IT bills.

When you enlist in Data Troop's Elite Care plan, our Command Center will monitor your Servers, Computers, Printers, basically everything on your network 24 hours a day, 7 days a week.

We'll be notified when a system, either a piece of hardware or an application, is unavailable or is about to start causing you problems. In some cases we are able to correct problems before you even know they exist. We'll also be alerted when there are unauthorized attempts to gain access to your system and when your computer just needs some software updates. Data Troop also offers hourly and prepaid block time purchases.

Elite Care Is A Multi-Layer Solution

That Keeps Your Network Protected & Running Smoothly

LAYER 1

Data Troop Command Center

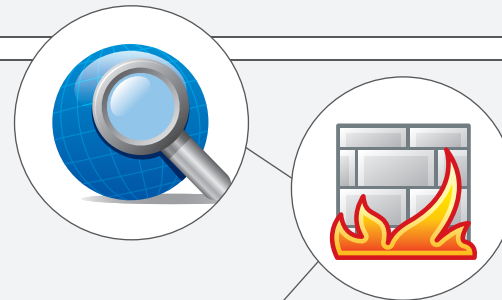

Our highly trained and skilled Elite Team is ready to proactively protect your network to keep it up and running smoothly.

LAYER 2

Company Firewall

Data Troop can effectively deploy and manage firewall devices by Cisco, Linksys, Sonicwall and more to protect your network from intrusions and allow employees to securely access the network remotely.

Internet

Company Firewall

★ Expertly Managed by Data Troop

LAYER 3

Frontline

Inexpensive network-wide Internet Security System. Block Spam, Spyware, and control your company's Internet usage with Frontline for only \$8/user/month.

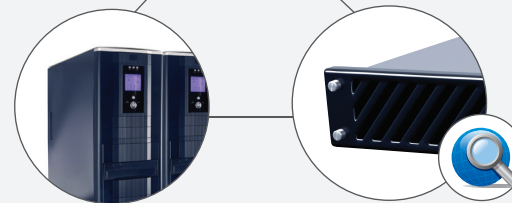

Frontline

★ Protection from SPAM, Spyware & Internet Abuse

LAYER 4

24/7 Monitoring & Software Management

Servers, PCs, Printers and Network Devices are monitored 24/7. All events and alerts of problems/potential problems are captured and sent to the Command Center. PCs and Servers are kept up to date with ever-critical Windows and AntiVirus updates.
